

ABHISHEK CHATTERJEE

abhishekchatterjee510@gmail.com | +91-7463974950 | [LINKEDIN](#) | [GITHUB](#)

Skills

- **Programming Languages:** Java | C++ | C | Python
- **Web Development:** HTML | CSS | JavaScript | Node.js | Express.js | React.js
- **Database:** MySQL | MongoDB
- **Tech skills and Tools:** Generative AI | Machine Learning | Git | VS Code

Education

Sarala Birla University, Ranchi, Jharkhand

2022- 2026

(BTech) Bachelor of Technology in Computer Science.

CGPA: 8.18/10

Work Experience

Usha Martin Limited | Summer Intern

Jul 2024- Aug 2024

- Optimized SAP MM material & vendor master data, improving workflow scalability and efficiency by 20% enhanced data analytics with advanced reporting tools, boosting operations by 15%.
- Increased data retrieval speed by 20%, significantly improving cross-departmental decision-making capabilities.

Projects

Realtime Whiteboard

Jun 2024

- Developed a real-time whiteboard using **Vanilla JavaScript, HTML, and CSS**.
- Integrated drawing tools (colored pencils, resizable erasers, sticky notes/images, board download) with Undo-Redo via stacks and real-time multi-user sync using Socket.io and Node.js.

Excel Clone

Sep 2024

- Developed a web version of Excel using **Vanilla JavaScript, HTML, and CSS**.
- Integrated 2D grid with UI features (sheets, formula/address bars, styling) and implemented formula evaluation using DFS and Infix Stack Evaluation.

Credit Card Fraud Detection System

April 2025

- Achieved 97% **ROC-AUC** by training a **Random Forest** on an imbalanced dataset with SMOTE and preprocessing.
- Deployed a **Streamlit app** for real-time fraud prediction, boosting detection accuracy by 45% over baseline.

SOS Safety Alert System(Working)

March 2025

- Developed a full-stack emergency alert system using the **MERN stack**, integrating GPS tracking via the Web Geolocation API, media support, and real-time SOS alerts with secure **RESTful APIs**.
- Built a responsive React frontend with real-time feedback and input validation; structured the backend using MVC architecture, enabled CORS, and tested endpoints using Postman and curl.

Coursework

- | | |
|----------------------------------|---|
| • Object Oriented Programing | • Software Engineering |
| • Database Management System | • Introduction to Artificial Intelligence |
| • Data Structures and Algorithms | • Introduction to Machine Learning |
| • Operating System | • Theory of Computation (Formal language and Automata Theory) |
| • Computer Networks | |

Training and Certifications

- **Data structure and Algorithms** in Java Certification from **AlgoPrep** (Pursuing).
- **CCNA: Introduction to Networks** on **CISCO Networking Academy** (Pursuing).
- **Web Development** virtual internship from **Codsoft** using HTML CSS and JavaScript.
- Upskilling programming through Tri language course **C, C++, Python** from **SBU**.
